

Name of research project List

Grants-in-Aid for Scientific Research(KAKENHI) in 2024

New

KAKENHI research category	Research project	Principal Investigator	School	Direct Costs (YEN)	Indirect Costs (YEN)
1 Scientific Research (C)	Establishment of a comprehensive support system for children experiencing parental separation and divorce-resolving divorce dispute based on an agreement	ODAGIRI Noriko	School of Human and Social Sciences	1,400,000	420,000
2 Scientific Research (C)	Impact of Dynamic Capabilities, Technological Readiness and Information Exchange Capabilities on the Resilience and Performance of Circular Supply Chains	TAJEDDINI Kayhan	Institute for International Strategy	1,500,000	450,000
3 Scientific Research (C)	understanding the factors affecting consumers behavior when purchasing remanufactured products: FsQCA with MCDM and PLS-SEM with MCDM-ML analysis approach	Sharkasi Nora	Institute for International Strategy	800,000	240,000
4 Scientific Research (C)	Development of Therapeutic Exercise for Autism Spectrum Disorder: A Perspective on Awareness and Movement Quality	YAMAMOTO Taisei	School of Health Sciences	900,000	270,000
5 Scientific Research (C)	Research on the improvement of psychological state and brain function through recreational scuba diving	FUMOTO Masaki	School of Health Sciences	2,200,000	660,000
Total				6,800,000	2,040,000
Total(Direct Costs+Indirect Costs)				8,840,000	

Continue

KAKENHI research category	Research project	Principal Investigator	School	Direct Costs (YEN)	Indirect Costs (YEN)
1 Scientific Research (B)	US Policy towards North Korea: Comparative Study on the Clinton, Bush and Trump Administrations' Policies, and Review of China Factor	IZUMI Hajime	Institute for International Strategy	1,400,000	0
2 Scientific Research (C)	Influence of gait adaptation on falling after discharge in stroke patients	KAWASAKI Tsubasa	School of Health Sciences	350,000	105,000
3 Scientific Research (C)	A database construction of asbestos world flow for supply chain analysis: a multi-regional input-output approach	TSUKUI Makiko	School of Business and Commerce	800,000	240,000
4 Scientific Research (C)	A study of management control systems aligned with leadership for implementing strategies	OKU Noriaki	School of Business and Commerce	300,000	90,000
5 Scientific Research (C)	Research on the Development of Effective Interventions to Reduce Public Stigma Among Persons with Mental Disorders	MATSUMOTO Sumiko	School of Human and Social Sciences	750,000	225,000
6 Scientific Research (C)	Foreign Aid Dependency in the Post-Conflict States of South Asia	Shin Sojin	Institute for International Strategy	2,000,000	600,000
7 Scientific Research (C)	A study on Female entrepreneurs' career formation	ISHIGURO Kuniko	Institute for International Strategy	1,300,000	390,000
8 Scientific Research (C)	Effect of different breastfeeding postures on upper limbs and trunk muscles	TAKEDA Kaname	School of Health Sciences	100,000	30,000
9 Scientific Research (C)	Analysis of brain activity during rhythmic passive movement	MASUGI Yohei	School of Health Sciences	700,000	210,000
10 Scientific Research (C)	Investigation of non-invasive neuromuscular modulation method using repetitive peripheral magnetic stimulation	MOROZUMI Kazunori	School of Health Sciences	0	0
11 Early-Career Scientists	Analysis of patellofemoral kinematics using 3D-to-2D registration	IKUTA Futoshi	School of Health Sciences	700,000	210,000
12 Early-Career Scientists	A prospective injury surveillance study; circumstances and risk factors of sports-related injuries in elite para swimming athletes	SHIMURA Keita	School of Health Sciences	100,000	30,000
13 Early-Career Scientists	Building a Teacher Education System to Promote the Utilizing ICT in Physical Education Classes	KIHARA Shinsuke	School of Human and Social Sciences	900,000	270,000
14 Early-Career Scientists	Effects of positioning pillow use on early motor development in very low birth weight infants	UCHIO Yuu	School of Health Sciences	700,000	210,000
Total				10,100,000	2,610,000
Total(Direct Costs+Indirect Costs)				12,710,000	

Extension

	KAKENHI research category	Research project	Principal Investigator	School	Direct Costs (YEN)	Indirect Costs (YEN)
1	Scientific Research (C)	The influence of sensory variables in workspace on employee satisfaction	HIRAKI Ikumi	School of Business and Commerce	Fully disbursed	
2	Scientific Research (C)	The current historical consciousness in regional communities in Japan (and its critical issue) —A study of the crisis and multilayer of local history (“kyoudo-shi”)—	TAKADA Tomokazu	School of Human and Social Sciences	Fully disbursed	
3	Scientific Research (C)	Conditions and Issues for Accepting the Concept of Language Rights under International Law into Japanese Domestic Law: Focusing on ethnic heritage languages.	SUGIMOTO Atsubumi	School of International Relations	Fully disbursed	
4	Scientific Research (C)	Build a comprehensive support system to implement co-parenting after divorce	ODAGIRI Noriko	School of Human and Social Sciences	Fully disbursed	
5	Scientific Research (C)	Studies on career in professional clubs	JODAI Keiko	School of Human and Social Sciences	Fully disbursed	
6	Scientific Research (C)	Comparative Studies of the Emergence of Multi-cultural Communities: From the Perspective of Composite Identity of Jewish People in Europe and North-Africa.	YOSHIDA Kazuhiko	School of Business and Commerce	Fully disbursed	
7	Scientific Research (C)	Longitudinal and follow-up study by visualizing learning contents of elementary school and junior high school for formulating learning contents of physical education	IMAZEKI Toyokazu	School of Human and Social Sciences	Fully disbursed	
8	Scientific Research (C)	Research on the Integration and Management Manner of Machine Learning Models in Federated Learnings by Distributed Computers	TSUCHIYA Takeshi	Institute for Data Science Education	Fully disbursed	
9	Scientific Research (C)	Simple Signs in Medical Facilities from the Viewpoint of Visual Literacy	OKAMOTO Noriko	School of International Relations	Fully disbursed	
10	Challenging Research(Exploratory)	Urgent Investigation of Japanese Competency of Specific Technic Intern Trainees in Quantitative and Qualitative Methods	SUKEGAWA Yasuhiko	Office for Educational Research and Initiatives	Fully disbursed	
11	Early-Career Scientists	Effects of menstruation on mood swings in healthy volunteers and bipolar patients: a mechanism of action that includes sleep and interpersonal relationships	NARUSE Mayu	School of Human and Social Sciences	Fully disbursed	
12	Early-Career Scientists	Balancing National Security and Sovereign Sensitivity: Re-examining the Law of the Sea Convention and Freedom of Navigation in Southeast Asia	ORDANIEL Jeffrey	Institute for International Strategy	Fully disbursed	
13	Early-Career Scientists	Development of a Neuromodulation Method Using Local Vibratory Stimulation and Transcutaneous Spinal Cord Stimulation	MASUGI Yohei	School of Health Sciences	Fully disbursed	
14	Early-Career Scientists	A Historical Study on the Teaching of Movement Techniques in Physical Education in Japan	FUJIKAWA Kazutoshi	School of Human and Social Sciences	Fully disbursed	
15	Research Activity Start-up	Analysis of the Quality in High-education Level over Democracy.	DELGADO Augusto	Institute for International Strategy	Fully disbursed
